

W. P. FULLER & CO.

TERMS AND CONDITIONS

Payments are to be made in current funds within 30 days, or 1 per cent discount for payment within 10 days from date of shipment. Accounts not paid at maturity are subject to charge of legal rate of interest.

All shipments are made at "Owner's Risk," unless otherwise instructed, and are therefore at risk of purchaser in transportation. Seller is not to be held accountable for any loss, breakage, or damage of any kind arising in transit, his responsibility ceasing after delivery to Transportation Company, unless insurance is especially provided.

All sizes not listed will take the list price and same number of lights per box of the next larger listed size.

For fractional or odd sizes not listed an additional charge will be made for cutting.

All sizes over 100 united inches are packed in 100-foot cases only.

BOXING CHARGES

The following packing charges will be made on all orders for less quantity than an original box or case:

Glass sizes up to 40 united inches.....	\$0.30
Glass sizes 40 to 60 united inches....	.50
Glass sizes 60 to 100 united inches....	.75
Glass sizes over 100 united inches....	1.00

SPECIAL NOTICE

TERMS AND CONDITIONS

All shipments are made at "Owner's Risk," unless otherwise agreed, therefore, at the risk of the purchaser in transportation.

After delivering to the Transportation Company our responsibility ceases, and the glass becomes the property of the purchaser.

Plate glass can be furnished in standard thicknesses of $\frac{1}{8}$ ", $\frac{3}{16}$ " and $\frac{1}{4}$ ", but a latitude of $\frac{1}{32}$ " over or under the thickness specified will be required. Prices on plate glass over $\frac{1}{4}$ " thick will be quoted upon application.

Odd and fractional parts of inches are charged at the price of the next highest even inch, thus: 31 x 120 $\frac{1}{2}$ " will be charged as 32 x 122".

Irregular sized glass, or glass cut to pattern, will be charged as it squares.

A charge of 10 per cent. will be made for all glass returned to stock after being cut to sizes ordered.

On all orders amounting to less than \$200.00 net, or for less than 3 lights of whatever value, boxing will be charged at the rate of 15 cents a SUPERFICIAL FOOT, lid measurement. Said lid measurement to be 6 inches longer each way than largest glass in said case.

Sizes not exceeding 10" wide and over 120" long are figured by taking one-half the price of double the width.

Sizes not exceeding 38" wide and over 170" long are figured by taking one-half the price of double the width.

TO APPROXIMATE WEIGHT OF POLISHED PLATE GLASS BOXED

Extend the glass at 3 $\frac{1}{2}$ lbs. per square foot. Weight of box equals the contents of a plate of greatest width and length of those packed therein, multiplied by 10. Thus:

$$\begin{array}{rcl}
 1 \text{ plate, } 36" \times 96" & \} & \\
 \quad " \quad 60" \times 84" & \} & = 59 \text{ ft.} \times 3\frac{1}{2} = 206\frac{1}{2} \text{ lbs.} \\
 \text{Size of box } 60" \times 96" & = & 40 \text{ ft.} \times 10 = 400 \\
 & & \hline
 & & 606\frac{1}{2} \text{ lbs.}
 \end{array}$$

CAUTION. Polished plate glass should never be allowed to remain in packing cases longer than necessary, as dampness may stain the surface.

TERMS OF PAYMENT

Payments are to be made in funds current in the Seller's City, within 30 days, or 1% discount for payment within 10 days from date of invoice.

NOTE: All ornamental work on glass priced per square foot to be figured on **ENTIRE AREA OF THE GLASS.**

EXAMPLE: 1 P. P. 24 x 48, stippling part of surface or base 8" from bottom and remainder of surface clear, figure cost of work for the entire surface of 24 x 48 or 8 square feet at \$1.50 per sq. ft., plus cost of glass used at current prices.

Bending Glass

**Plate Glass, Window Glass, and Heavy Sheet
Glass**

	Price per square foot								
Type of Bend	A	B	CD	EFH	G	J	K	L	
Up to and including 18" around the bend	.76	.96	1.08	1.20	1.36	1.72	3.16	2.20	
19" to 48" around the bend	.80	1.00	1.12	1.24	1.40	1.76	3.20	2.24	
49" to 72" around the bend	1.04	1.28	1.44	1.64		3.08	4.16	2.84	
Over 72" around the bend	1.32	1.60	1.84	2.04		3.44	4.20	3.52	

1. (a) The above prices cover bending only.
- (b) Plate Glass will be charged at the current schedule; other types of glass at an advance above current schedules to cover transportation to the Bending Plant.

Bending Glass—Continued

- (c) Boxing will be charged at 20c net per square foot lid measurement, plus 40c net per linear inch of depth in excess of four inches. Bent lights exceeding the size 55x83 on both dimensions, with the exception of "A," "D," and "G" bends, require cradle cases with the following additional charge: Up to 100" long \$4.50 net per case, up to 120" long \$5.00 net per case, and over 120" long \$5.50 net per case. Wherever possible, when the glass would ordinarily require a cradle case more than 90" in depth (involving higher freight rates) the factory will pack in a regular box, the glass riding on the bent edge.
- (d) All shipments f. o. b. factory.
2. The following extras will be added to the bending charges:
 - (a) Glass with Ground Edges.....10 % net
 - (b) Glass with Polished Edges.....25 % net
 - (c) Glass with Beveled Edges.....25 % net
 - (d) Polished Wire Glass.....45 % net
 3. Type "G" Bends cannot be produced wider than 42".
 4. Odd or fractional sizes will be charged at the next higher even inch; viz, a 36 1/4 x 37 1/4 becomes a 38 x 38.
 5. Special prices will be charged on sizes larger than 84" wide by 172" high, irregular shapes, heavy Plate Glass (over 9/32" in thickness), Rough and Ornamental, or Engraved Glass.
 6. Sizes containing less than one square foot will be charged as one square foot. Sizes less than twelve inches in width will be computed as twelve inches wide.

Minimum Charges

7. The following NET minimum charges will be made:

	A	B	CD	EFH	G	J	K	L
For only one Plate of a given size	2.00	2.50	3.00	3.00	3.50	4.00	8.00	5.50
For two or more Plates of the same size	4.00	5.00	6.00	6.00	7.00	8.00	16.00	11.00.

Types of Bends

Bending Glass

Explanation of Curves and Diagrams

(Shown on Page 12)

A—Curves are those which are bent to a given radius one way of the pane only, which applies to the whole length or width of the pane, and not to one part only. The depth of bend not to exceed one-eighth of the length of the bent side of pane. Example, length of the bent side of pane, 96 in., depth of bend not above 12-in.

B—Curves are those which are bent more than one-eighth but not to exceed the quarter of a circle, or about 1 in 5½. Example, pane 77-in., bend 14-in.

C—For the same curve as B, but a part flat, the flat part not to exceed one-third. Example, pane 72-in., bend 48-in., flat 24-in.

D—For flat curves, with one part flat, the depth of the bent part not to exceed 1 in 12, and the flat part one-half. Example, pane 72-in., bend 36-in., depth 3-in., flat 36-in.

E—For curves, the bent part not less than a 6-in. radius, and not to exceed the quarter of a circle, with flat part, the flat part to exceed one-third, but not to exceed two-thirds. Example, pane 72-in., bend 24-in., flat 48-in.

F—Curves are those which are bent beyond the quarter of the circle, but not to exceed 1 in 4. Example, pane 84-in., depth 21-in.

G—For curves, depth not to exceed 1 in 16. Example, pane 64-in., depth 4-in.

H—For angular curves, viz:—Flat parts on each side, the centers not to exceed a quarter of a circle, and the flat parts one-fourth of the sides bent. Example, pane 80-in., bend 60-in., flat 10-in. each side, or about 5 one side and 15 the other.

J—For angle curves (radius not less than 6-in.), the center not to exceed the quarter circle, and the flat to exceed one-fourth, but not to exceed three-fourth. Example, pane 72-in., bend 18-in., flat 27 in. each side, or about 14-in. on one side and 40-in. on the other.

K—Curves are those which are bent beyond 1 in 4 but not to exceed the half circle (diameter not less than 12-in.). Example, pane 75-in., depth about 24-in.

L—Curves not to exceed the quarter of a circle at each side (depth of bend not less than 6-in.), the bent part not less than one-third, and the flat not more than two-thirds. Example, pane 72-in., bend 12-in. each side, center flat 48-in.

In ordering specify width (measurement around curve) first, and then the height. We prefer pattern or template of sweep in all cases.

Resilvering Mirrors

Note: Resilvering will not remove scratches or change the quality of the glass itself.

At customer's risk of breakage both in transit and in process.

	Sq. Ft.
Glass containing not over 10 sq. ft.....	\$1.00
Glass containing over 10 and up to 20 sq. ft.	1.20
Glass containing over 20 and up to 40 sq. ft	1.40
(Minimum charge \$1.00 NET)	

Cartage 50c net extra, and an additional charge of from 25c to 75c net extra, depending on size, will be made for taking out and resetting Mirrors sent us in frames.

All Plates sold from this list are subject to the following conditions:

Payments are to be made within 30 days, or 1% discount for payment within 10 days from date of invoice.

All past due accounts will bear interest at the rate of 6% per annum.

Boxing will be charged at Current Rates.

All fractional parts of inches and odd-sizes will be charged at the next higher even-inch size plates required to cut them.

Risk of breakage and damage during transportation is to be borne by the purchaser. Plates exceeding the sizes comprised in the tables will be furnished at special prices.

EXCERPTS FROM COMMERCIAL STANDARD CS 27-36

GENERAL REQUIREMENTS

ALL mirrors sold as of commercial standard quality shall be serviceable mirrors equaling or exceeding the quality designated for each grade.

Since the central area of the mirror comes in the direct line of vision, it is of greater importance and therefore defects occurring therein are more serious than those appearing in the outer area.

The central area is that portion of the mirror considered to form an oval or circle centered on the piece, the axes or diameters of which do not exceed 80 per cent of the over-all dimensions.

On mirrors to be fitted into frames, small chips on the edge shall not be considered as defects provided they are at least $\frac{1}{8}$ inch smaller than the width of the frame rabbet.

QUALITIES

The several grades designated below shall comply with the requirements specified.

"A QUALITY"—The central area of mirrors of this quality shall be free from major defects, but may contain well scattered fine seed and short faint hair lines, when not grouped, and occasionally very light short finish visible only on close inspection. The outer area, in addition, may contain seed and short faint scratches when not grouped.

No. 1 QUALITY—The central area of mirrors of this quality may contain scattered seed, faint hair lines, and light short finish.

The outer area, in addition, may contain short scratches and occasional strings not over 2 inches long.

No. 2 QUALITY—Mirrors of this quality may contain the following defects: Numerous scattered seed, occasional coarse seed, light reams, strings, light scratches, short finish if not torn, hair lines if not too densely grouped and bull's eye if not visible from front inspection.

STANDARD THICKNESSES

Plate glass mirrors of commercial standard quality shall be between three-sixteenths and five-sixteenths of an inch thick. If specific thicknesses are ordered, a variation of one-thirty-second inch plus or minus the given thickness shall be allowed.

SILVERING

All plate glass mirrors of commercial standard quality shall be silvered in an approved manner and guaranteed for a period of one year from the date of manufacture, unless the mirrors are subjected to unusual conditions, such as open weather, moist walls, steamed rooms, direct sunlight, or similar conditions.

METHOD OF INSPECTION

It is desirable that a uniform method of inspection be followed since the distance from the mirror being examined, the angle between it and the line of sight, and the intensity of light, all affect the visibility of imperfections.

Accordingly, the mirror should be examined in indirect daylight of medium intensity with the inspector's eye on a level with the center of the plate and about 36 inches away.
